RETURN AIR ACCESS PANEL

RA-VFC

MARFAB architecturally designed RETURN AIR ACCESS PANELS:

Engineered for a perfect fit onto vertical fan coil units.

Silent Operation - Ideal for luxury condos, hotels, hospitals, and schools, the MARFAB panel's one-piece construction with integrated louvers, eliminates noise and vibration.

Aesthetically Pleasing - Finished with designer white powder paint, the sleek design blends seamlessly with any modern decor.

Durable and Cost Effective to Service - Manufactured in satin coat steel to prevent corrosion, the 22 gauge door and 20 gauge frame provide superior strength and long life. This RETURN AIR ACCESS PANEL is easy to service.

PATENT PENDING
U.S. File No 10/939891
Canada File No. 2456900

Ultimate Convenience - The MARFAB removable door system provides easy access. One man operation. No tools required.

Safety - The unique single piece construction complete with integral louvers, prevents accidental insertion of foreign objects while providing ultimate air flow and superior strength.

The MARFAB R/A PANELS are manufactured to the latest engineering standards and simplicity of construction providing a cost effective alternative to the user.

Available in custom sizes, with cylinder locks and other optional features to meet your specific needs. Call for details.
