

INTEGRATED RETURN AIR ACCESS PANEL

RA-VFC-INTG

MARFAB architecturally designed INTEGRATED RETURN AIR ACCESS PANELS are engineered for a perfect fit onto vertical fan coil units with ERV integrated systems.

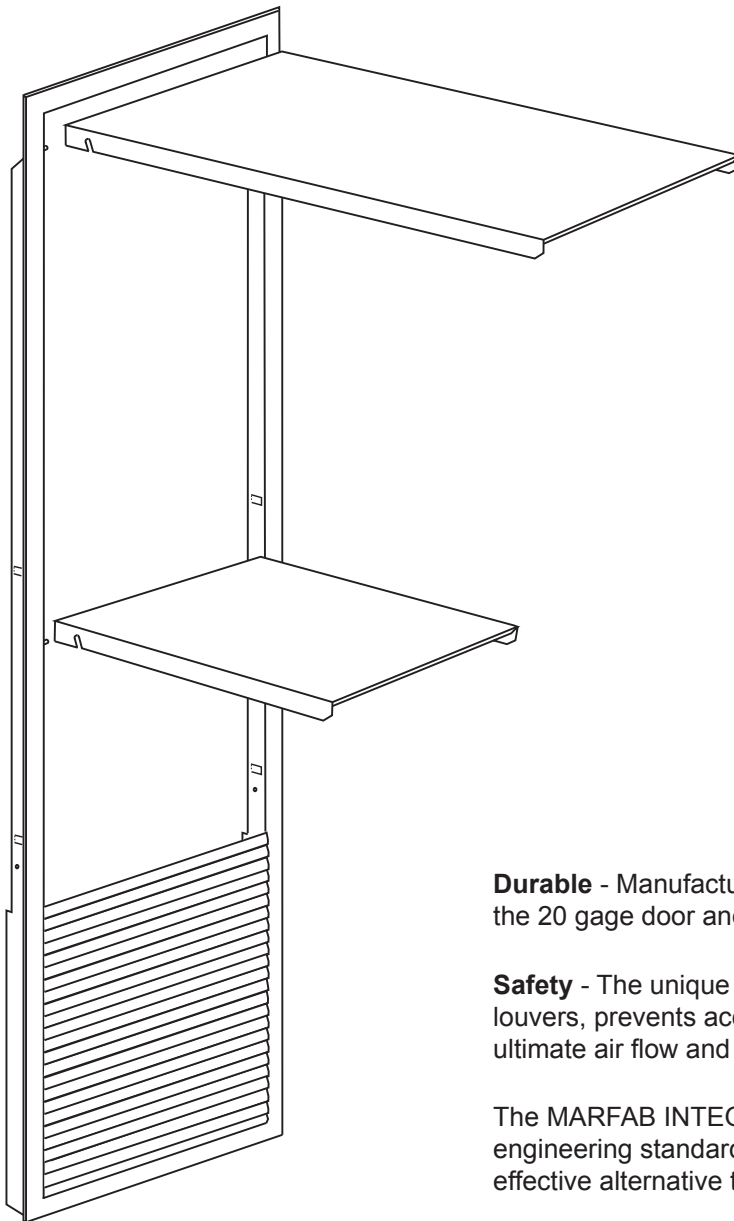

Silent Operation - Ideal for luxury condos, hotels, hospitals and school residences, the one-piece frame construction with integrated louvers, eliminates noise and vibration.

Aesthetically Pleasing - Finished with designer white powder paint, the sleek design blends with any modern decor.

Ultimate Convenience - The INTEGRATED RETURN AIR ACCESS PANEL **removable door system** provides easy access to all components in the HVAC unit. One man operation. No tools required.

PATENT PENDING

Durable - Manufactured in satin coat steel to prevent corrosion, the 20 gage door and 20 gage frame provide superior strength and long life.

Safety - The unique single piece construction complete with integrated louvers, prevents accidental insertion of foreign objects while providing ultimate air flow and superior strength.

The MARFAB INTEGRATED R/A PANEL is manufactured to the latest engineering standards and simplicity of construction providing a cost effective alternative to the user.

Available in custom sizes. Call for details.
