

RETURN AIR ACCESS PANEL WITH SWINGING DOOR PANEL - Key Lock

RA-VFC-HK

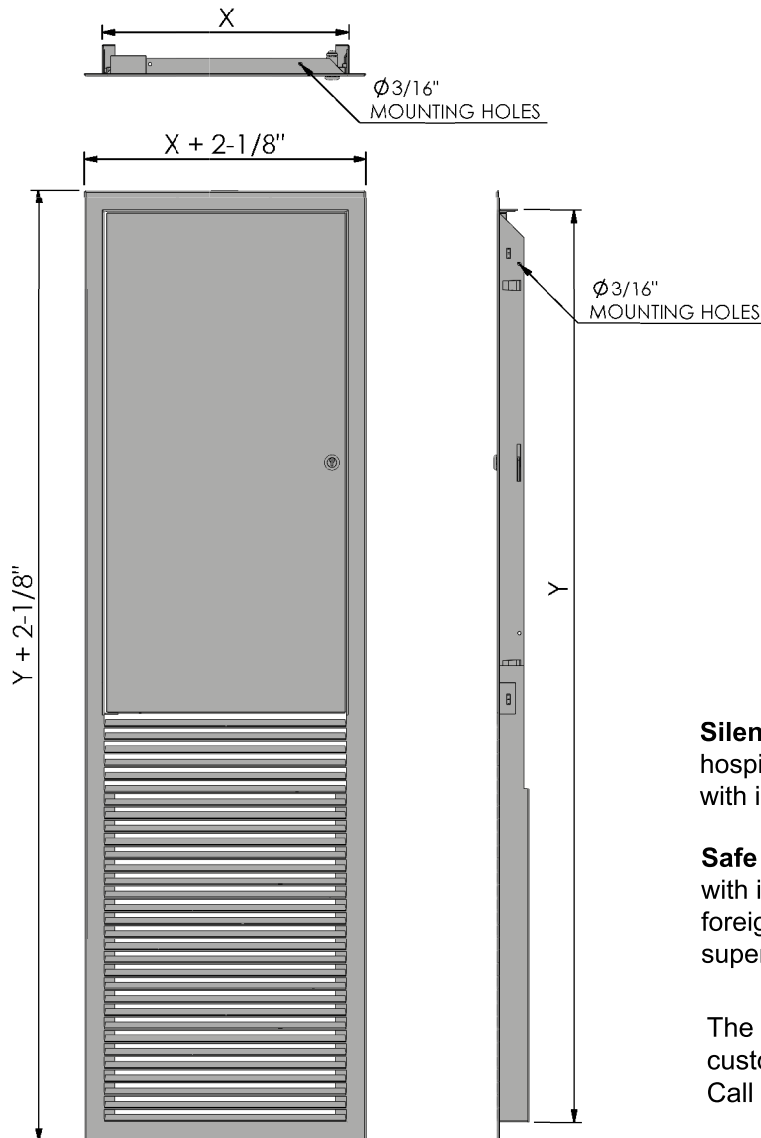

The **MARFAB RETURN AIR ACCESS PANEL WITH SWINGING DOOR PANEL** is engineered for a perfect fit onto vertical fan coil units. The pivot hinge design allows the door to open a maximum of 140 degrees giving full access to components during service.

The "**Appliance White**" finish blends with any modern decor. Colour matching is available.

Made from corrosion resistant satin coat steel, the door and frame are manufactured in 20 gage material. Our exclusive formula powder coat finish offers superior protection against condensation.

Cylinder Key lock

Key lock sets are included but not installed.

Silent Operation - Ideal for luxury condos, hotels, hospitals, and schools, the one-piece frame construction with integrated louvers, eliminates noise and vibration.

Safe - The unique single piece construction complete with integrated louvers, prevents accidental insertion of foreign objects while providing ultimate air flow and superior strength.

The Marfab RA-VFC-HK Panel can be manufactured in custom sizes to meet your specific requirements. Call for details.
