

# PERIMETER RETURN AIR ACCESS PANEL with HINGED DOOR

RA-HP-PERI-H

The **Perimeter Return Air Access Panel with Hinged Door** is designed for heat pumps. It is custom made to meet customer specific requirements.

The hinged door with magnetic latches swings open to allow access for service. It is lined with 1/2" thick Linacoustic RC insulation which provides superior acoustical and thermal performance.

### Material:

Manufactured from corrosion resistant satin coat steel, the door is manufactured from 22 GA and the frame is made in 22 GA.

### Finish:

The durable "Appliance White" powder coat finish\* blends seamlessly with any modern decor and our exclusive powder coating formula, offers superior protection against condensation.

\*Alternative colours and textures are available.
