

DRYWALL BEAD HRV/ERV CEILING MOUNTED ACCESS PANEL with REMOVABLE DOOR

CAP-DBF-3224

MARFAB CAP-DBF Ceiling Mounted Access Panels are designed for drywall installation. The door is flush to the frame with drywall corner beads on all sides. Once installed, the outer flange is concealed and only the door is visible.

Removable Panel allows for quick and easy access to equipment in ceilings.

Installation:

Place access panel in opening and secure using the 3/16" pre punched mounting holes in the frame. Apply drywall cement over beading.

Latch:

Zinc plated screwdriver operated cam. Optional cylinder keylock.

Material:

Manufactured from satin coat steel (22 Ga roll formed frame and 22 Ga door).

Finish: Powder coated in "White Texture"

Size: 32" x 24" **Ceiling Opening Requirement:** 32 1/4" x 24 1/4"

Available Options: Custom sizes, alternative paint colours and colour matching.
