

CEILING MOUNTED ACCESS PANEL with LOUVRES and REMOVABLE DOOR

The **CAP-LV Ceiling Mounted Access Panel** is designed for a flush mount onto ceilings.

Stationary louvres in the door panel reduce noise from vibration and provide ventilation for equipment in the ceiling.

The **Removable Door Panel** allows quick and easy access to equipment for service.

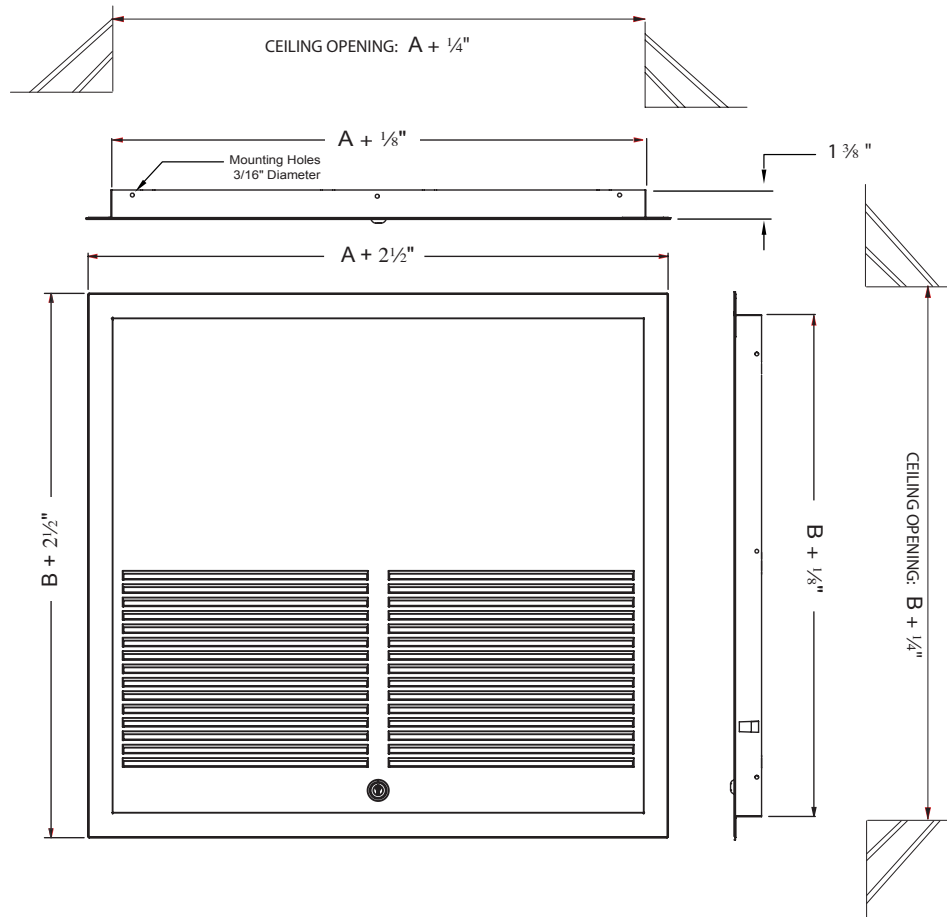

Mounting holes on internal frame allow secure installation when affixed to steel or wood frame.

Zinc plated Cam Latch

Manufactured from 18 and 22 Ga satin coat to resist corrosion.

"Sandtex White" powder coat finish

Our unrivaled, exclusive formula powder coat finish offers superior protection against condensation.

Optional:

- Custom size
- Alternative paint colours
- Colour Matching
- Cylinder Key lock
