

ELITE - DRYWALL BEAD CEILING MOUNTED ACCESS PANEL with REMOVABLE DOOR - CONCEALED PUSH LATCH

CAP-DBF-ELITE

The **CAP-DBF-ELITE** Ceiling Mounted Access Panel is designed for drywall installation. When installed, the outer flange is concealed, and only the door is visible for a smooth, flush mount in the ceiling.

Concealed push latches secure the door, adding to the aesthetic quality of this product with **no visible hardware**. The result is a stylish, contemporary access door that blends seamlessly with the ceiling.

To open, simply push on the door panel to disengage the push latches, and allow to swing open.

Removable Door Panel allows quick and easy access to equipment for service.

Installation: Place access panel in opening and secure using the 3/16" pre punched mounting holes in the frame. Apply drywall cement over beading.

Manufactured from satin coat steel (22 Ga frame and 22 Ga door).

Finish: Powder coated in "Ultra Flat White"

Manufactured in **custom sizes**.

Options: Custom colour matching
